# Ford Master Kits

## ENGINE

The authentic hardware you need to correctly reassemble the engine components which attach to the long-block.

Most fasteners are either meticulous reproductions or New Old Stock.

The most significant items may be seen in the BULK section, others are not shown.

Save up to 40% over the individual kit price.

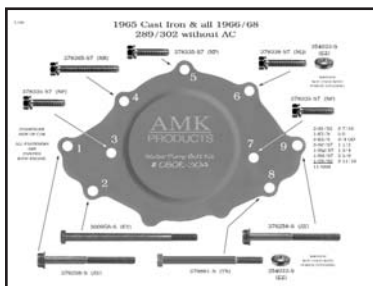

1966-73 kits feature Original Ramp-Lok® exhaust manifold bolts

### Typical kit includes fasteners to attach:

air cleaner, carburetor, crank pulley, distributor & points & condensor & vacuum unit, drain plugs, engine tag, exhaust manifolds, fan & fan clutch, fuel pump, shroud, ignition coil & strap, intake manifold, oil filter adapter, oil pan, starter, timing cover, valve covers, water neck & water pump. Small Block kits include a water pump bolt placement illustration. Details at [www.amkproducts.com/Ford\\_Master\\_Kits.asp](http://www.amkproducts.com/Ford_Master_Kits.asp)

# Ford Master Kits

## INTERIOR

A comprehensive interior assembly fastener kit !

Each application within the Master kit is separately packaged so you know exactly where it goes.

Use this kit in conjunction with the factory assembly manuals.

Most oval head sheet metal screws in our kits are now stainless with chrome, black or zinc finish.

Save up to 25% over the individual kit price.

**Typical kit includes fasteners to attach:** air vent duct, ash tray & liner, carpet, coat hooks, console, courtesy lamps, dash pad & mouldings, door handles, armrests, dome lamp, door panels & grilles, glove box & liner, glove box latch & catch, headliner retainers, heater control, horn pad, instrument cluster & finish panels, kick panels, mirror bracket, package tray, quarter trim panels, radio bezel, rear seat, scuff plates, seat back adjustment, seat back release, seat mouldings, seat track to body, shifter boot, sun visors & bracket, window crank handles, windshield pillar mouldings and windshield top inside mouldings. ## General Fastener Kits

About 80% of these individual kits are found in *Master Kits*. AMK Fastener kits are based on part numbers & finishes specified in the factory Assembly Manuals.

We hold closely to these specifications unless we find otherwise. We have the knowledge, fastener information and sources needed to make accurate and authentic fastener kits.
